

Dear Parent/Carers,

Our spellings for Monday's quiz are:

which	witch	write	right
to	two	too	
hour	our	are	

In English this week, we have written our information texts on Emperor penguins. We have included a title, subheadings, an introductions, fact boxes, topic language and tried to use pronouns to vary our vocabulary. Next week, we will be writing about a different animal in the same style and we hope we can continue to impress with our amazing features but also exciting vocabulary and conjunctions.

In Maths, we have learnt how to present data (information with numbers) in different ways such as pictograms, tally charts and bar graphs. We learnt how to draw different graphs, how to interpret them to answer questions and about different situations in which each one might be useful. Here is an example of the type of question that we have had a go at answering! Can you think of a question that could be asked about the pictogram below?

Hair Colour		Total
Black	● ● ● ● ●	5
Blonde	● ● ● ● ● ● ●	
Brown		9
Ginger	● ● ● ●	4

Key

● = 1 person

In Geography, we have been learning to locate some of the coastlines of the United Kingdom. We used Google Maps to find their location, then plotted them onto our maps.

As you may have noticed from some of the children's uniforms, we are well into our new Art topic 'Sculpture and 3D', which is all about moulding, shaping and manipulating clay. The children are really enjoying getting their hands stuck into this topic, quite literally! So far, we have attempted to create models of different shapes, as well as making clay pots.

Thank you for your support,

Mr Bale, Miss Stephenson and the Year 2 Team
